Ethical Framework								
The Hospital is committed to ensuring decisions and practices are ethically responsible and align with our Vision, Mission and Values. Leaders should consider decisions from an ethics perspective including their implications on patients, staff and the community.								
The following questions should be considered for each decision:								
<ol style="list-style-type: none"> 1. Does the course of action put 'Patients First' by responding respectfully to the needs, values, and expectations of our patients, their families, and the communities? 2. Does the course of action demonstrate 'Accountability' by advancing a quality patient experience that is socially and fiscally accountable? 3. Does the course of action demonstrate 'Respect' by honouring the uniqueness of each individual and his/her culture? 4. Does the course of action demonstrate 'Excellence' by fostering an environment of innovation and learning to provide a quality patient experience? 								
For more detailed questions to use on difficult decisions, please refer to the Hospital's Framework for Ethical Decision Making
