At Thunder Bay Regional Health Sciences Centre, patients are first. As leaders in Patient and Family Centred care, we partner with patients and their families every step of the way to treat the person instead of the disease or injury.

As an academic health sciences centre, we teach the next generation of healthcare providers and advance medical research. Patients benefit from a team approach to care, and the chance to take part in clinical trials.

Your donation to the Health Sciences Foundation advances care in all areas.
