

Thunder Bay Regional Health Sciences Centre

Leaders in Patient Safety, Diversity, Inclusion & Value Based Care

FT, PT and Locum Anesthesia Opportunities

We are currently accepting applications for full-time, part-time and locum anesthetists. With a robust and growing service in beautiful Thunder Bay you will have access to a state of the art facility and excellent supportive colleagues. Enjoy exciting lucrative cases with unparalleled opportunity for career growth.

Practice includes trauma, major orthopedics, neuro, thoracic, vascular, obstetrics and pediatrics (rarely neonates). Work load and on-call is shared between 17 staff

and we run both acute and chronic pain services. Remuneration is fee for service with an attractive APP funding model.

Our hospital is a 395 funded bed acute care facility which provides coverage to a regional population base of 250,000 people. Delivering all services daily including acting as the Regional Trauma Centre and Cancer Referral Centre for the Northwestern Ontario region with plans to include Cardiac Surgery by 2020.

The preferred candidate must be eligible for licensing with the College of Physicians and Surgeons of Ontario and have certification with the Royal College of Physicians and Surgeons of Canada.

Recruitment supports available including a funded site visit, recruitment bonus and relocation expenses for the right candidate. For more information please contact Jamie Sitar, Physician Recruitment & Retention Specialist at Sitarj@tbh.net or 807-684-6028

“ Working here, we are motivated for the possibilities of advancing our health care careers through the health-related graduate programs available at Lakehead University. We are always exposed to students (Canadian and International) at the Thunder Bay Regional Health Sciences Centre, making it an ideal environment to network with the best and newest health care professionals. ”

Serving Northwestern Ontario

Serving Northwestern Ontario

Thunder Bay Regional Health Sciences Centre serves Northwestern Ontario from east of White River to the Manitoba border in the west and from Hudson Bay in the north to the United States border in the south.

Thunder Bay Regional Health Sciences Centre is the only acute care hospital in the City of Thunder Bay and operates one of the busiest emergency departments in Canada and the only one in the City. Ours is also the only tertiary

hospital in Northwestern Ontario and a regional referral centre for 10 smaller regional acute care hospitals.

We are a unique region with unique gaps in health care.

 375

Beds (+ 14 overflow + 64 transitional care)

 1,725

Admissions per month for 2018/19

 1,500

Learners - academic centre

 34,000

Outpatient visits per month (over 1,000 per day)

 9,000

Emergency Department visits per month

Research Will Transform the Future of Health Care

Thunder Bay Regional Health Research Institute

The Thunder Bay Regional Health Research Institute is distinct. Until very recently, health research facilities of this calibre would be housed in a major metropolitan centre. Our Health Research Institute allows health research to grow in and address the specific needs of a remote and rural environment. Indeed, our scientists found that Thunder

Bay's size and status as a regional hub has tremendous advantages, particularly access to collaborators.

We are able to focus our research to address the health care challenges unique to our region.

We see opportunity to secure funding, to partner with other institutions, to engage clinicians, and to cooperate with Indigenous community leaders to conduct

impactful research. With a focus on imaging, discovery science and Indigenous health research, along with a robust clinical trials department, we are delivering on our Mission to be an international leader in health technology research and other strategic health innovations that improve the health of the people of Northwestern Ontario and others.

 153

Authorized **clinical research studies** open at Thunder Bay Regional Health Sciences Centre as of March, 2019

 44

Cancer care **oncology studies**; the Clinical Trials Department supports 36 of the 44

 72

Peer reviewed publications (past 5 years with past and present Scientists - currently there are 6 researchers)

Academics & Learning

Learners play an important role at our Hospital. We are the teaching hospital of choice for learners from the Northern Ontario School of Medicine, Lakehead University, Confederation College, and other partnering academic institutions. We are an academic health sciences centre, committed to teaching the next generation of health care providers. Patients benefit from interprofessional teams of health care providers and access to leading-edge medical equipment

and clinical trials. Our health care providers have the opportunity to take on teaching positions with our academic partners.

We are proud to provide our learners and health care professionals with education through Simulation Based Learning. Our new Simulation Centre allows practitioners to practice and expand their knowledge and skills within a safe and controlled environment. Simulated scenarios help to better prepare our

health care providers to respond effectively and appropriately to stressful situations in clinical practice.

Thunder Bay Regional Health Sciences Centre supports our employees to enhance their professional development by offering various education opportunities, certificate programs and an annual tuition reimbursement program.

Living in Thunder Bay

In addition to working at a world-class academic health care facility, you also have the city of Thunder Bay and surrounding area at your back door. We are known for our access to the outdoors: hiking,

fishing, camping, snowshoeing, skiing; we have it all! We also have great festivals, live theatre and comedy, amateur and collegiate level sporting events, and an extensive local food and eatery

scene. For more information, please visit: www.gotothunderbay.ca/en/index.aspx or www.visitthunderbay.com/en/index.aspx
